

## Spring Hanger System

# M534 Spring Hanger

- Easy installation.
- Simple height adjustment after installation.
- Ideal for hanging of soffits, bulkheads, suspended cloud panels, barreled ceilings, etc.
- Product has been independently tested and approved to carry a maximum safe load of 110 lbs per assembly.
- Product can be suspended from concrete slabs and joists with a full selection of hanging brackets.

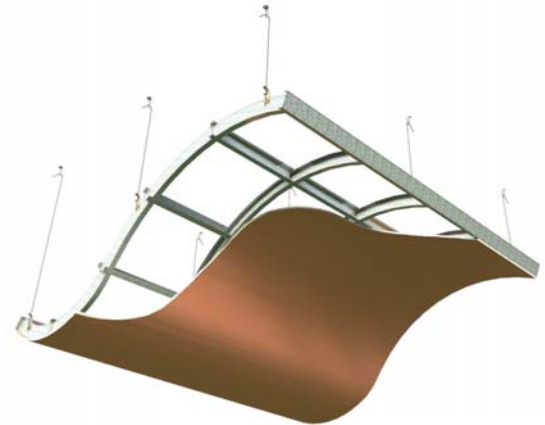

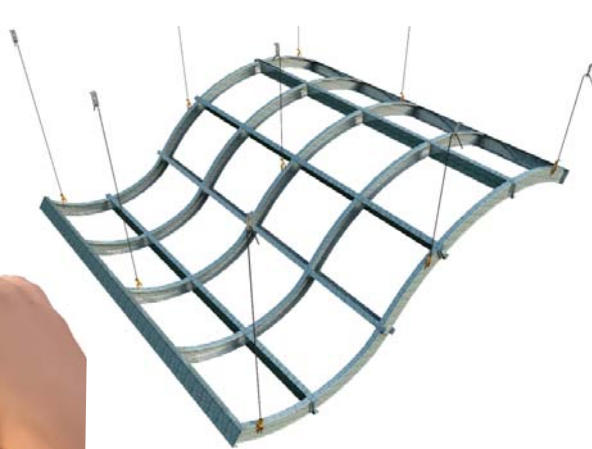

# M534 Spring Hanger

FOR SUSPENDING SOFFITS, CLOUDS, BULKHEADS, BARRELED CEILINGS AND HVAC INSTALLATIONS

Squeeze together for infinite height adjustment.

## Specifications

CODE	DESCRIPTION	MAX LOAD
M534	Spring Hanger	110lb of load per M534 Spring Hanger Assembly
M74	Rod Bracket	
M47	Right Angle Bracket	
M21	Suspension Rod 5mm Diameter	
Tested by Intertek Testing Services Report 3127639C0Q-002		

Screw through pilot holes into framing.

## Isolation needed...A50R also available.

The extensive range of sound isolation mounts for suspension ceilings that have varying load capacities.

CODE	$\alpha$	$\beta$	$\omega$	c
A50R-1	3-3/4"	3/16"	65	Red
A50R-2	3-3/4"	3/16"	120	Black
A50R-3	3-3/4"	3/16"	200	Blue

$\alpha$  = Clip height  
 $\beta$  = Maximum Deflection at Maximum weight  
 $\omega$  = weight capacity (lbs)  
c = Color
